Right Eye : Near Vision 0/5 (Snellen)	Distance : 6/6	
Left Eye: Near Vision 0/5 (Snellen)	Distance : 6/6	
Each eye must have a full field of vision, colour blindness, squint or any morbid condition of the eye or the lids of either eye, will result in disqualification.		
For the post of Assistant Motor Vehicle Inspector: under APTSS Rules, Must be certified to possess the visual standards specified below without glasses:		
<p>(a) Right Eye: Distance Vision 6/6 - Near Vision: 0.5 (on Snellen's Chart)</p> <p>(b) Left Eye: Distance Vision 6/6 - Near Vision: 0.5 (on Snellen's Chart)</p> <p>(c) Each eye must have a full field of vision.</p> <p>(d) Colour Blindness, squint or any morbid conditions of the eyes or lids of either eye shall be deemed to be a disqualification.</p>		

d) (i) In respect of the posts / services concerned with the safety of public, the total amount of Myopia (including the cylinder) shall not exceed (– 4.00 D).

Total amount of Hypermetropia (including the cylinder) shall not exceed (+ 4.00 D)

Provided that in case a candidate is found unfit on ground of high myopia/very Hypermetropia the matter shall be referred to a Special Board of three ophthalmologists to declare whether this myopia/ Hypermetropia is

pathological or not. In case it is not pathological, the candidate shall be declared fit, provided he fulfills the visual requirements otherwise.

(ii) In every case of myopia/ Hypermetropia, fundus examination should be carried out and results recorded. In the event of pathological condition being present which is likely to be progressive and affect the efficiency of the candidate he/ she should be declared unfit.

(e) **Field of Vision:** The field of vision shall be tested in respect of all services by the confrontation method. When such test gives unsatisfactory or doubtful result the field of vision should be determined on the perimeter.

(f) **Night Blindness:** Broadly there are two types of night blindness: (1) As a result of Vitamin A deficiency and (2) As a result of Organic disease of Retina -common cause being Retinitis Pigmentosa. In (1) The fundus is normal, generally seen in younger age group and ill-nourished persons and improves by large doses of Vitamin A. In (2) the fundus is often involved and mere fundus examination will reveal the condition in majority of cases. The patient in this category is an adult and may not suffer from malnutrition. For both (1) and (2) dark adaptation test will reveal the condition.

(g) **Colour Vision:** The testing of colour vision shall be essential in respect of the posts /services mentioned at **Para II**.

Colour perception should be graded into higher and lower grade depending upon the size of aperture in the lantern as described in the table below:

Grade	Higher Grade Colour perception	Lower Grade colour Perception
1. Distance between the Lamp and the candidate	16 ft	16 ft
2. Size of aperture	1.3 mm	13 mm
3. Time of exposure	5 seconds	5 seconds

Satisfactory colour vision constitutes recognition with ease and without hesitation of signals red, green and yellow colours. The use of Ishihara's plates, shown in good light and a suitable Edrige Green's Lantern shall be considered quite dependable for testing colour vision. In doubtful cases where a candidate fails to qualify when tested by only one of the two tests, both the tests should be employed.

(h). Ocular condition other than visual acuity:

- i. Any organic disease or a progressive refractive error, which is likely to result in lowering visual acuity, should be considered a disqualification.
- ii. Squint: Squint with normal vision in both eyes can be corrected. For the posts of RDO, DSP (Jails), FRO/ACF& AES, such a candidate may be declared temporarily unfit. For the remaining posts, i.e., DSP (Civil), DSP (Communications), DFO, AMVI & Excise SI squint shall be cause for disqualification.
- iii. If a person has one eye or if he has one eye which has normal vision and the other eye is amblyopic or has subnormal vision the usual effect is that the person is lacking stereoscopic vision for perception of depth. The medical board may recommend as fit, such persons, provided the normal eye has 6/6 distant vision, J/1 near vision with or without glasses provided the error in any meridian is not more than 4 dioptries for distant vision.

Full field of vision:

Normal colour vision wherever required.

Provided the board is satisfied that the candidate can perform all functions for the particular job in question.

- iv. **Contact Lenses:** During the medical examination of a candidate, the use of contact lenses is not to be allowed. It is necessary that when conducting eye test the illumination of the typed letters for distant vision should have an illumination of 15 foot-candles.

GUIDELINES FOR SPECIAL OPHTHALMIC BOARD :

Special Ophthalmic Board for eye examination shall consist of 3 ophthalmologists:

- (a) Cases where the Medical Board has recorded visual function within normal prescribed limits but suspects a disease of progressive and organic nature which is likely to cause damage to the visual function should refer the candidates to a Special Ophthalmic Board for opinion as part of the first medical Board
- (b) All cases of any type of surgery on eyes, IOL refractive corneal surgery and doubtful cases of colour defect should be referred to a Special Ophthalmic Board.
- (c) In such cases where a candidate is found to be having high myopia or high hypermetropia the medical board should immediately refer the candidates for a Special Board of three Ophthalmologists constituted by the Medical Superintendent of the Hospital with the Head of the Department of Ophthalmology of the Hospital or the Senior most Ophthalmologist as the Chairman of the Special Ophthalmic Board. The Ophthalmologists / Medical Officer who has conducted the preliminary ophthalmic examination cannot be a part of the Special Board.

The examination by the special board should preferably be done on the same day. Whenever it is not possible to convene the special board of three Ophthalmologists on the day of the Medical Examination by the Medical Board, the Special Board may be convened at an earliest possible date.

The Special Ophthalmic Board may carry out detailed investigations before arriving at their decision.

The medical board's report may not be deemed as complete unless it includes the report of the special board for all such cases which are referred to it.

Guidelines for reporting on border line unfit cases:

In border line cases of substandard visual acuity, subnormal colour vision, the test will be repeated after 15 minutes by the board before declaring a person unfit.

07. Blood Pressure: The Board will use its discretion regarding Blood Pressure. A rough method of calculating normal maximum systolic pressure is as follows:

- (i) With young subjects of 15-25 years of age, the average is about 100 plus the age.
- (ii) With subjects of over 25 years of age, the general rule of 110 plus half the age seems quite satisfactory.

N.B. – As a general rule any systolic pressure over 140 mm. and diastolic over 90 mm. should be regarded as suspicious and the candidate should be hospitalized by the board before giving their final opinion regarding the candidate's fitness or otherwise. The hospitalization report should indicate whether the rise in blood pressure is of transient nature due to excitement etc. or whether it is due to any organic disease. In all such cases X-ray and electrocardiographic examination of heart and blood urea clearance test should be done as a routine. The final decision as to fitness or otherwise of a candidate will, however, rest with the medical board only.

Method of taking blood pressure: the mercury manometer type of instrument should be used as a rule. The measurement should not be taken within fifteen minutes of any exercise or excitement. Provided the candidate and particularly his/her arm is relaxed, he/she may be either lying or sitting. The arm is supported comfortably at the candidate's side in a more or less horizontal position. The arm should be freed from the cloth to the shoulder. The cuff completely deflated should be applied with the middle of the rubber over the inner side of the arm and its lower edge an inch or two above the bend of the elbow. The

following returns of cloth bandage should spread evenly over the bag to avoid bulging during inflation.

The brachial artery is located by palpitation at the bend of the elbow and the stethoscope is then applied lightly and centrally over it below but not in contact with the cuff. The cuff is inflated to about 200mm.hg. and then slowly deflated. The level at which the column stands when soft successive sounds are heard represents the systolic pressure. When more air is allowed to escape the sound will be heard to increase in intensity. The level at which the well-heard clear sounds change to soft muffed fading sounds represents the diastolic pressure. The measurements should be taken in fairly brief period of times as prolonged pressure of the cuff is irritating to the candidate and will vitiate the reading. Rechecking if necessary should be done only a few minutes after complete deflation of the cuff. Sometimes as the cuff is deflated sounds heard at a certain level may disappear as pressure falls and reappear at a still lower level. This silent gap may cause error in readings.

08. Urine Examination:

The urine (passed during the process of examination) should be examined and the results recorded. Where a Medical Board finds sugar present in the candidate's urine by the usual chemical tests, the Board will proceed with the examination with all its other aspects and will also specially note down any signs or symptoms suggestive of diabetes. If, except for the glycosuria, the Board finds the candidate conforms to the standards of medical fitness required, they may pass the candidate as fit, subject to the glycosuria being non-diabetic and the Board will refer the case to a specified Specialist in Medicine who has hospital and laboratory facilities at his/her disposal. The Medical Specialist will carry out whatever examinations, clinical and laboratory, he considers necessary including a standard blood sugar tolerance test, and will submit his/her opinion to the Medical Board upon which the Medical Board will base its final opinion "fit" or "unfit". For this purpose the candidates will not be required to appear in person before the Board on the second occasion. To exclude the effect of medication it may be necessary to retain a candidate for several days in hospital under strict supervision.

09. (Pregnancy): A woman candidate, who as a result of tests is found to be pregnant of 12 weeks standing or over should be declared temporarily unfit until the confinement is over. She should be re-examined for fitness certificate six weeks after the date of confinement, subject to the production of a medical certificate of fitness from a registered medical practitioner.

10. THE FOLLOWING ADDITIONAL POINTS SHOULD BE OBSERVED :

(a) That the candidate's hearing in each ear is good and that there is no sign of disease of the ear. In case it is defective the candidate should be got examined by an ENT Specialist, provided that if the defect in hearing is remediable by operation or by use of a hearing aid a candidate cannot be declared unfit on that account provided he/she has no progressive disease in the ear. The following are the guidelines for the medical examining authority in this regard.

1. Marked or total deafness in one ear other ear being normal	Fit, if the deafness is up to 30 decibels in higher frequency.
2. Perceptive deafness in both ears in which some improvement is possible by a hearing aid	Fit, if the deafness is up to 30 decibels in speech frequencies of 1000-4000
3. Perforation of tympanic membrane of central or marginal type	(i).one ear normal other ear having, perforation of tympanic membrane – temporarily unfit. Under improved conditions of ear surgery, a candidate with marginal or other perforation in both ears should be given a chance by declaring him temporarily unfit and then he may be considered under 4(ii) below (ii). Marginal or attic perforation in both ears 'unfit'

	(iii). Central perforation in both ears 'temporarily unfit'.
4. Ears with mastoid cavity subnormal hearing on one side/on both sides	(i). Either ear normal hearing and other ear with mastoid cavity – 'Fit' (ii). Mastoid cavity of both sides – 'Unfit'
5. Persistently discharging ear operated/ un-operated.	'Temporarily Unfit'
6. Chronic inflammatory/ allergic condition of nose with or without bony deformities of nasal Septum	A decision will be taken as per circumstances of individual cases
7. Chronic inflammatory conditions of tonsils and/or Larynx	(i). Chronic inflammatory conditions of tonsils and /or larynx- 'fit' (ii). Hoarseness of voice of severe degree if present then 'temporarily unfit'.
8. Benign or locally malignant tumours of the E.N.T.	(i). benign tumours 'temporarily unfit' (ii). Malignant Tumour- 'Unfit'
9. Otosclerosis	If the hearing is within 30 decibels after operation or with the help of hearing aid – 'Fit'
10. Congenital defects of ear, nose or throat.	(i). If not interfering with functions – 'Fit'
11. Nasal/poly	'Temporarily unfit'.

- (b) That his/her speech is without impediment;
- (c) That his/her teeth are in good order and that he/she is provided with dentures where necessary for effective mastication (well filled teeth will be considered as sound); A candidate with decayed teeth may be declared as temporarily unfit. However decayed teeth are a disqualification for the posts of AMVI & DSP (Communications) & Excise SI.
- (d) That the chest is well formed and his/her chest expansion sufficient and that the hearts and lungs are sound
- (e) That there is no evidence of any abdominal disease;
- (f) That the ear-drum is not ruptured;
- (g) That he/she does not suffer from hydrocele, varicose veins or piles; Candidates suffering from such complaint may be declared temporarily unfit. However varicose veins is a disqualification for the posts of AMVI, DSP (Communications) & Excise SI.
- (h) That his/her limbs, hands and feet are well formed and developed and that there is free and perfect motion of all joints – However, fractured limbs are a disqualification for DSP (Communications), Excise SI & AMVI.
- (i) That he/she does not suffer from any inveterate skin disease;
- (j) That there is no congenital malformation or defect;
- (k) That he/she does not bear traces of acute or chronic disease pointing to an impaired constitution;
- (l) That he/she bears marks of efficient vaccination; and
- (m) That he/she is free from communicable diseases.

11. Candidates with knocked knees and flat foot are to be declared as unfit for all posts/ services mentioned at **para II**. Candidates with pigeon chest, hammer toes are unfit for the posts of AMVI, DSP (Communications) & Excise SI.

12. Radiographic examination of the chest should be done as a routine in all cases for detecting any abnormality of the heart and lungs, which may not be apparent by ordinary physical examination in respect of such candidates who are declared finally successful.

13. Candidates who are affected with certain curable afflictions may be declared as '**temporarily unfit**' by the Medical Board. Such afflictions have been specified at paras 6(h-ii), 9 & 10 (above).

i. In case where a Medical Board considers that a minor disability disqualifying a candidate for Government Service can be cured by treatment (medical or surgical) a statement to the effect should be recorded by the Medical Board. There is no objection to a candidate being informed of the Board's opinion

to the effect by the appointing authority and when a cure has been affected it will be open to the authority concerned to ask for another Medical Board.

ii. In the case of candidates who are to be declared 'Temporarily Unfit' the period specified for re-examination should not ordinarily exceed six months at the maximum. On re-examination after the specified period these candidates should not be declared temporarily unfit for a further period but a final decision in regard to their fitness for appointment or otherwise should be given.

14 a. In case of doubt regarding health of a candidate the Chairman of the Medical Board may consult a suitable Hospital specialist to decide the issue of fitness or unfitness of the candidate for Government Service e.g. if a candidate is suspected to be suffering from any mental defect or aberration, the Chairman of the Board may consult a Hospital Psychiatrist, Psychologist, etc.,

b. When any defect is found it must be noted in the certificate and the medical examiner should state his opinion whether or not it is likely to interfere with the efficient performance of the duties which will be required of the candidate.

c. In case where a candidate is declared unfit for appointment to the Government Service the ground for rejection may be communicated to the candidate in broad terms without giving minute details regarding the defects pointed out by the Medical Board.

d. The report of the Medical Board should be treated as confidential.

e. The decision of the Chairman of the Medical Board (conducting the medical examination of the concerned candidate) about the fitness of the candidate shall be final.

15. The candidates filing an appeal against the decision of the Medical Board have to deposit an appeal fee of Rs.100.00 in such manner as may be prescribed by the Government of Andhra Pradesh in this behalf. This fee would be refunded if the candidate is declared fit by the Appellate Medical Board. The candidates may, if they like, enclose a medical certificate in support of their claim of being fit. Appeals should be submitted within 21 days of the date of the communication in which the decision of the Medical Board is communicated to the candidates; otherwise request for second medical examination by an Appellate Medical Board will not be entertained. The Medical Examination by the Appellate Medical Board be arranged as decided by Commission and no travelling allowance or daily allowance will be admissible for the journeys performed in connection with the medical examination.

MEDICAL BOARD'S REPORT

The following intimation is made for the guidance of the Medical Examination:-

1. The standard of physical fitness to be adopted should make due allowance for the age and length of service, if any, of the candidate concerned.

No person will be deemed qualified for admission to the Public Service who shall not satisfy Government or appointing authority as the case may be that he has no disease, constitutional affliction, or bodily infirmity, unfitting him or likely to unfit him for that Service.

It should be understood that the question of fitness involves the future as well as present and that one of the main objects of medical examinations is to secure continuous effective service, and in the case of candidates for permanent appointment to prevent early pension or payments in case of pre-mature death. It is at the same time to be noted that the question is one of the likelihood of continuous effective service and the rejection of a candidate need not be advised on account of the presence of a defect which in only a small proportion of cases is found to interfere with continuous effective service.

A Lady Doctor will be co-opted as a member of the Medical Board whenever a woman candidate is to be examined.
